

COMPREHENSIVE BREAST CANCER INSTITUTE

Metro North Health CBCI Community Forum

FREE
event with
morning tea
provided

9.00am–10.30am | Wednesday 25 October 2023 | Redcliffe

The Comprehensive Breast Cancer Institute (CBCI) is transforming care with life changing innovations.

While the incidence of breast cancer is increasing, world-leading research being

conducted right here at Metro North is translating to better clinical outcomes.

Come and listen to passionate clinicians talk about the exciting projects in development now and in the future.

CBCI success so far

World first

Breast reconstruction using 3D engineered biodegradable scaffolds

Queensland first

IORT will reduce 3-6 weeks of radiation treatment to <30 minutes intraoperatively

Brisbane first

ROLLIS localising seeds lessen anxiety for the patient & improves the preoperative pathway
