provided

Breast Cancer Awareness Month Community Forum

“Living well with Lymphoedema: Evidence to action”

Thursday 9 October 2025 | 7:30am-11.30am

The Comprehensive Breast Cancer Institute’s goal is to facilitate best practice standardised breast care for patients and aims to improve geographic access and close service gaps to make high quality care accessible to every patient. This is achieved by advancing knowledge and technology to transform personalised healthcare and accelerate the translation of research into clinical practice.

Come and listen to insightful presentations and participate in Q&A with health consumers, community groups, passionate clinicians, and researchers.

Topics include:

-  Life after Breast Cancer
-  Breast Cancer Advocacy
-  Living with Lymphoedema
-  Lymphoedema: Taking Control
-  Breast Cancer Related Lymphoedema:
Risk Factors and Management Strategies

Where:

Education Centre, Royal Brisbane and Women’s Hospital Campus,
Herston
