DIGITAL METRO NORTH

Accessing Follow Me Desktop (FMD) from an External Device

Once you have FMD access approved and VMware Horizon Client installed on your device, you can configure FMD to access your Queensland Health desktop.

Important: VMware Horizon Client needs to be downloaded onto your desktop and you need to have set up RSA On-Demand Authentication.

- 1. Open *VMware Horizon Client* on your computer or mobile device.
- 2. Click Add Server icon.

3. Enter **mydesktop.health.qld.gov.au** as the connection server and click **Connect.**
