

9 June 2021

Dear colleagues,

I'm excited to announce that as of today our first Community Vaccination Clinic at Doomben Racecourse is officially open! Our Community Vaccination Clinic is open seven days a week from 8 am to 4 pm to all eligible members of the community.

We have hundreds of appointments available today, so if you've got any family or friends who are waiting to get vaccinated please encourage them to come down today to Gate 5. There is onsite parking and lots of friendly staff looking forward to seeing you today.

We're aiming to deliver 390 vaccines by the end of today, and by the end of the week we're aiming to deliver 1000 vaccines a day! So please help us share this message.

For more information on our clinics and to book an appointment visit our [COVID-19 vaccinations webpage](#).

If you can't register or book in (sometimes there can be issues with the internet browser being used, or other things well beyond your own control), still come to Doomben and our friendly staff will help you register and get vaccinated.

See you at Doomben Gate 5:)

Kind regards,

Dr Liz Rushbrook
Metro North Incident Controller
