Current situation

We currently have 145 active cases of COVID in our care, including 85 inpatients with 6 in ICU (4 ventilated). There are 60 patients in the Virtual Ward, a decrease since last week.

Today 283 staff are away from work due to either being COVID positive or requiring isolation due to being a close contact. This number does not include other types of sick leave.

Tier 2 planned move

We are planning to move to Tier 2 in our COVID and Influenza Response Plan on Wednesday morning.

This will mean recommencing outpatient care (both in person and virtual), category 1 elective surgery and category 4 endoscopies, and long waits for all other categories.

I will provide more details tomorrow including the link to the plan on a page.

Until then, Metro North remains in Tier 3 of our COVID-19 and Influenza Response Plan.
