

Dear team

As part of Accreditation preparation, TPCH along with other directorates, is required to undergo a Peer Review every 12 months.

TPCH's Peer Review, being led by Metro North's Executive Director Clinical Governance, Grant Carey-Ide will run tomorrow, **Tuesday 2 July and Wednesday 3 July**.

As part of this process, 14 peer assessors will be on site visiting selected areas throughout the hospital.

Areas of focus are likely to include:

- Hand hygiene
- Bare below the elbows
- Mask wearing
- Storage of consumables
- Mandatory training e.g. fire safety.

The peer assessors will also speak to patients, relatives, visitors and staff to find out more about their experiences at TPCH.

If the peer assessors visit your area, please make them feel welcome and take the opportunity to promote the great work we do here at TPCH.

For any queries, please contact the Safety and Quality Unit at: SQUTPCH@health.qld.gov.au or speak to your line manager.

Tami Photinos
Executive Director
