

Redcliffe Hospital

Staff Update

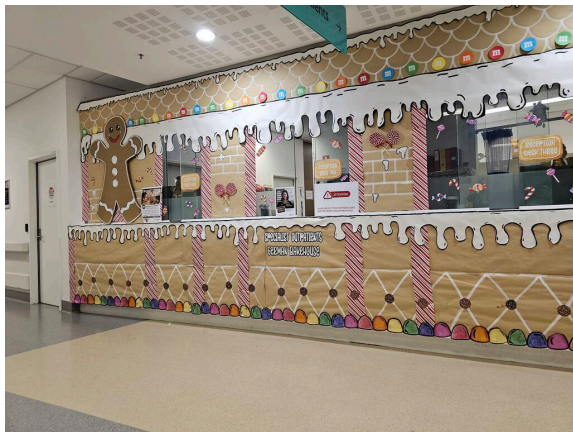

Metro North Health

It's looking a lot like Christmas at Redcliffe Hospital!

To celebrate the season, 15 wards and work areas participated in this year's Christmas decorating competition.

With the theme "Christmas Around the World", staff put considerable time and effort into representing Christmas in destinations including European Christmas markets, Aussie summer, The North Pole and even an Elves' World Tour.

While all areas did a fantastic job (and made things very challenging for our judges), the following top three have been announced for 2024, including judge's comments.

3rd place

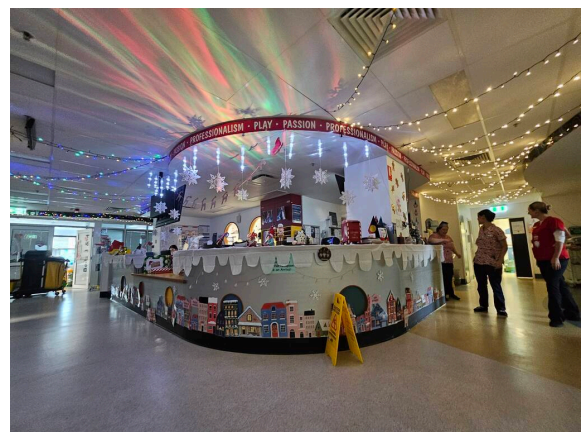

*Specialist Outpatients Department–
German Christmas Bakehouse
(pictured left)*

The reception area provided a wonderful warm feeling for patients coming for appointments, as they lined up at candy cane lane! The judging panel also loved how each gingerbread person was different.

2nd place

*Paediatric Ward–
Nordic Christmas
(pictured right)*

The northern lights create a magical environment for the children in the ward. The reception desk Christmas Village Street having a house for all staff in the ward was a lovely touch.

1st place

Level 4 East–

*New York Christmas
(pictured left)*

The decorations displayed a collaborative approach with ability for patient interaction throughout the ward. Asking patients to find the “elf” promotes mobility and is a great reminder that activity can prevent functional decline in our admitted patients.

Thanks to everyone who embraced the festive spirit and brought some joy to those spending Christmas time in hospital.

Christmas!
