

Hi CKW team,

**Less than two weeks until instructor-led training starts**

The countdown is on, with ieMR instructor-led training commencing for most staff in less than two weeks, from Monday 3 February 2025.

Prior to attending instructor-led training session/s, nursing, midwifery, pharmacy, and some administration staff must complete mandatory online prerequisite training. This training can be completed at your own pace via [Talent Management System \(TMS\)](#), but must be finalised before instructor-led training begins.

If you're unsure about what online training you need to complete, please speak to your line manager or [click here to take the ieMR Training Quiz](#).

As of today, 20 percent of CKW staff have completed all of their ieMR training and proficiency, with the breakdown by staffing cohort below.

**Staff Training by Profession**

Congratulations to those who have achieved their ieMR proficiency at the early ILT sessions that have been held over the last few weeks. We can expect the number of training completions for our Medical, Midwifery, and Nursing staff to really begin moving from Monday 3 February onwards, once ILT commences for everyone.

For any questions about your online prerequisite or instructor-led training that can't be answered by your line manager, please email either: [Adam.Stott@health.qld.gov.au](mailto:Adam.Stott@health.qld.gov.au) or [Alessandra.Kelly@health.qld.gov.au](mailto:Alessandra.Kelly@health.qld.gov.au) from the Metro North Health ieMR Program Training Team.

**PeMR going live at Woodford Correctional Centre on Thursday, 5 June 2025**

Alongside the integrated electronic Medical Record (ieMR) go-live at Caboolture and Kilcoy Hospitals occurring from 7 May 2025, the Prisoner electronic Medical Record (PeMR) will be going live at Woodford Correctional Centre on Thursday, 5 June 2025.

The PeMR can be thought of as an extension of the ieMR. Where the ieMR replaces paper-based records and workflows within a hospital, the state-wide PeMR system replaces paper-based

medical records and workflows used within Correctional Centre Health Services.

While technically separate projects, the sequenced implementations of the ieMR and PeMR across CKW will ensure our services all transition to using a digital medical record system together, and will enable safer transfer of care between our hospitals and Woodford Correctional Centre.

If you would like to learn more about the PeMR, [please click here to access the eHealth Queensland PeMR Project QHEPS site](#).

Kind regards,

**Karlene Willcocks**, Executive Director and  
**Grant Duffill**, Director Clinical Health Information Service

Caboolture, Kilcoy and Woodford
