

Hi CKW team,

The next step in our ieMR learning journey starts in just a few days, with ieMR instructor-led training for all applicable staff commencing from Monday, 3 February 2025.

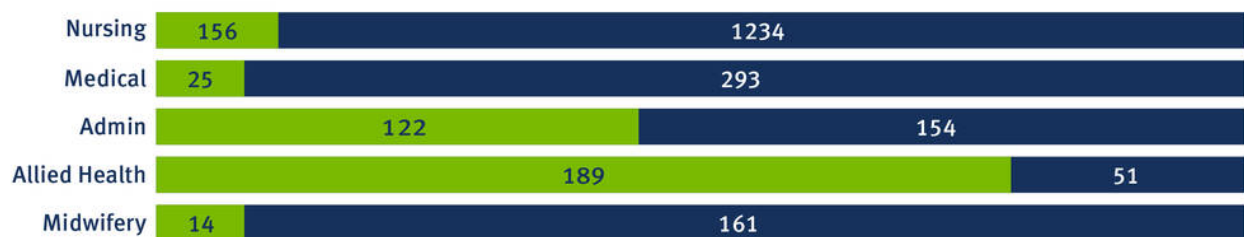

Instructor-led training will be held at several different locations across the hospital campus, so please check your training confirmation email or the [CKW QHEPS ieMR training calendar](#) to confirm where your training session will be held.

If you are a nurse, midwife, pharmacist, or administrative staff member with outstanding online prerequisite training to complete, the next few days are an excellent opportunity to do so. This training can be completed at your own pace via [Talent Management System \(TMS\)](#), and must be finalised before you attend instructor-led training.

If you are unsure about what ieMR training you will need to complete ahead of go-live in May 2025, please speak to your line manager or [click here to take the ieMR Training Quiz](#).

As of today, 21 percent of CKW staff have completed all of their ieMR training and proficiency, with the breakdown by staffing cohort below.

Staff Training by Profession

I look forward to seeing these numbers begin to grow in earnest from next week!

For any questions about your ieMR training that can't be answered by your line manager, please email either: Adam.Stott@health.qld.gov.au or Alessandra.Kelly@health.qld.gov.au from the Metro North Health ieMR Program Training Team.

Kind regards,

Karlene Willcocks, Executive Director and
Grant Duffill, Director Clinical Health Information Service

Caboolture, Kilcoy and Woodford
