

Hi CKW team,

We have reached a major milestone in our ieMR readiness journey this week, with the commencement of instructor-led classroom training at Caboolture Hospital.

A graphic with a dark blue background and a green bottom section. On the left, the text reads: "Instructor-led ieMR training has commenced" in large white font, followed by "Speak to your line manager about enrolling in instructor-led training." in smaller white font. On the right, there is an illustration of a woman in a blue blazer holding a green tablet, with a green circular logo above her head containing the text "ieMR" and a Wi-Fi symbol. At the bottom left, a dark blue button with white text says "Click here for more information".

Training will be delivered at several locations across the hospital campus – either at the Education Centre, Ward 4A, or at the Caboolture Medical Hub, 124 McKean Street – so make sure you double-check ahead of time where your instructor-led training session/s will be held before attending.

The time, date, and location of your instructor-led training will be emailed to you once your line manager has booked you in. Please speak with your line manager if you have any availability considerations or questions about instructor-led training.

Alternatively, you can [visit QHEPS](#) to view the instructor-led training timetable for a full list of training session details.

As of today, 24 percent of CKW staff have completed all of their ieMR training and proficiency, with the breakdown by staffing cohort below.

Staff Training by Profession

For any questions about ieMR training that can't be answered by your line manager, please email either: Adam.Stott@health.qld.gov.au or Alessandra.Kelly@health.qld.gov.au from the Metro North Health ieMR Program Training Team.

Complete the ieMR staff readiness survey

Click below for another opportunity to provide feedback on how ready you are feeling for our upcoming ieMR go-live.

How ready are you for the ieMR at Caboolture and Kilcoy Hospitals?

Complete this staff readiness survey in preparation for the ieMR go-live.

[Click here to take the survey](#)

The second of three surveys that will be available for us to complete prior to go-live, the feedback received will give a clear snapshot of how we're progressing so far in our ieMR readiness journey.

This feedback will inform the project team's approach to providing support in the final few months leading into go-live, so I encourage everyone to be as comprehensive as possible in their feedback when responding to this survey.

Kind regards,

Karlene Willcocks, Executive Director and
Grant Duffill, Director Clinical Health Information Service

Caboolture, Kilcoy and Woodford
