

Hi CKW team,

As discussed in last week's update, there are a number of integrated electronic Medical Record (ieMR) knowledge maintenance activities becoming available for staff to complete over the next several weeks. These activities will build upon knowledge obtained during training, keeping it fresh and ready for our go-live in May.

Alongside the scenarios announced last week (commencing from Monday, 3 March 2025 – [click here for more information and to view the scenarios timetable](#)), self-directed practice activities are now also available to complete.

Available on the [Digital Metro North Resources site](#), the profession-specific practice activities are an opportunity to apply what you've learned during training in a safe, simulated environment, and can be accessed at any time from any workstation connected to the Queensland Health network.

Speak to your line manager for training login details, and instructions on using the Train Domain and accessing the practice activities. Otherwise, click below for more information and to peruse the practice activities available.

Complete self-directed ieMR practice activities from your workstation

[Click here for more information](#)

With both the practice activities and scenarios we have available to complete, it is **essential** to not leave training completion until the last minute before go-live. The knowledge maintenance

activities delivered prior to go-live will all help keep your learned knowledge fresh and ready for go-live on 7 May 2025.

As of today, 37 percent of staff at Caboolture and Kilcoy Hospitals have completed all their ieMR training and proficiency, with the breakdown by staffing cohort below.

Staff Training by Profession

If you have any ieMR training questions that your line manager cannot answer, please email either: Adam.Stott@health.qld.gov.au or Alessandra.Kelly@health.qld.gov.au from the Metro North Health ieMR Program Training Team.

Kind regards,

Karlene Willcocks, Executive Director and
Grant Duffill, Director Clinical Health Information Service

Caboolture, Kilcoy and Woodford
