

Hi CKW team,

Caboolture and Kilcoy Hospitals

# The ieMR is coming, are you ready?

**4 weeks** until go-live

**Complete mandatory ieMR training**

Have you completed your online prerequisite and instructor-led ieMR training and proficiency?  
Speak to your line manager as a priority if you have not.

**Practise using the ieMR**

Maintain the skills you've learned using a training replica of the ieMR. Speak with your line manager for access.

**ieMR go-live starts 7 May 2025**

During this final stretch, **training completion is our number one priority.**

It is essential that all staff training is completed prior to go-live on Wednesday, 7 May 2025. If you are struggling to find time to complete the online component of your training via [Talent Management System \(TMS\)](#), please speak with your line manager so they can help set aside a suitable time for you to do so.

As of today, 65 per cent of staff have completed all their mandatory integrated electronic Medical Record (ieMR) training, with the breakdown by professional stream below.

## Staff Training by Profession

For any line managers that need assistance booking their staff in for instructor-led classroom training, please contact either: [Adam.Stott@health.qld.gov.au](mailto:Adam.Stott@health.qld.gov.au) or [Alessandra.Kelly@health.qld.gov.au](mailto:Alessandra.Kelly@health.qld.gov.au) from the ieMR Program Training Team.

Another way to prepare for ieMR go-live is by attending a [Scenario Session](#), delivered directly in your work area. An in-person walkthrough of digital workflows and common aspects of the ieMR's functionality specific to your clinical area, you can [click here](#) to see when your area's next Scenario Session is being held.

If you'd prefer something that can be completed in your own time, [ieMR Practice Activities](#) are available to access from any networked computer in the hospital via the DMN Resources website. Providing a safe environment to practice using the ieMR, please speak to your line manager for login details and instructions on how to access the online practice activities.

Kind regards,

**Karlene Willcocks**, Executive Director and  
**Grant Duffill**, Director Clinical Health Information Service
