Message from the

## Executive Director The Prince Charles Hospital

Tami Photinos

### Summary:

- New multi-storey car park open today Monday 14 July

Message feedback

Audience: All staff

Read: 2 min

For: Information

Dear colleagues,

I am pleased to confirm that the new multi-storey car park opened today, with the first vehicle arriving at 4:45am, and was in full swing as staff arrived at work this morning. Thank you to the staff who were patient as they become familiar with the workings of the new car park, and thanks also to the car parking team and security staff that were on hand to assist on day one.

While the car park is now open, there will still be a couple of changes ahead as things continue to come online. The express ramp, which will provide direct access to level 3, will open in approximately a week, and by Monday 21 July, both entries and exits are expected to be operational.

You will have noticed that the existing car park has temporarily closed and will be unavailable for a few weeks to allow for some minor maintenance and line marking works to safely take place, including refurbishing the old lift.

While the at-grade (open air) car park areas are tariff-free at the moment, once the car parking technology upgrades to these car parks are complete (anticipated September), tariffs will apply site-wide.

I would like to thank Metro North's Sustainable Assets and Infrastructure project team who helped deliver the new car park alongside the construction contractor and Metro

North's car parking team for operationalising the car park and managing applications for staff car parking.

As previously mentioned, we will continue to monitor traffic flow along Main Road and are looking at options in the short and longer term regarding traffic issues in and around our campus and I will keep staff informed of developments.

In the meantime, happy parking!

Kind regards

**Tami Photinos**
