

**HERSTON  
BIOFABRICATION  
INSTITUTE**

# Urology Program Showcase & Testing

**Wednesday 12th October**

**12pm - 2:30pm**

**Herston Biofabrication Institute (Lvl 12, Block 7 RBWH)**

The Herston Biofabrication Institute Urology Program invites you to join our showcase and testing

We are looking for surgeons of all clinical experience levels to test the training models. Our goal is to showcase our research and developments, while receiving structured clinical feedback.

The following training models & projects will be available:

- Partial nephrectomy training model
- Silicone casted paediatric pyeloplasty training model
- Ureteral reimplantation (ureteroneocystostomy) training model
- Urethral dilator design testing
- Virtual anatomic model visualisation on portable devices
- Suitability of printed material
- Laparoscopic/robotic trainer design

There will be a complimentary lunch provided by Materialise. Please advise of any dietary requirements.

**RSVP:**

Bronte Bonython (UQ MD2)
