

Musculoskeletal Physiotherapy Screening Clinics and Multidisciplinary Service (MPSC & MDS)

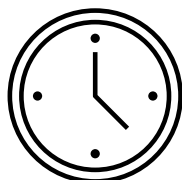

Welcome to the **RBWH Physiotherapy Department**. You will be seeing one of our highly trained physiotherapists who will create a plan with you to help with your spine or joint condition.

How our service works:

1. Your doctor has asked for a review of your spine or joint condition.
2. The RBWH MPSC & MDS works **together** with the surgeons to see many patients like you.
3. You will be contacted to have an appointment with a **highly trained physiotherapist**. They will **create a plan with you**, to help you.
4. Your plan may include non-surgical treatment with our team of health professionals and/ or involvement of surgeons.

How to prepare for your appointment:

1. The average waiting time for an appointment is: **2-6 months**
2. See the 'Getting to the RBWH' sheet for information about parking and transport.
3. Wear **comfortable and loose clothing**. Depending on where your pain is, your physiotherapist may ask you to remove clothing so they can assess you properly.
4. You're welcome to bring a **family member, carer or support person** into the appointment with you.
5. You're welcome to ask your physiotherapist **any questions** about your condition. It is a good idea to think of some before your appointment.
