

# Reimagining Herston Quarter

**Reimagining Herston Quarter is a monthly newsletter that people can subscribe to and receive a snapshot of important site activity.**

As a nearby resident or business, we would encourage you to subscribe to receive these updates via email, by registering at [www.herstonquarter.com.au](http://www.herstonquarter.com.au).

## Site Activity Update

Demolition of the former Children's Hospital is almost complete. Machinery is moving toward the western end of the site and carefully bringing down the concrete structure that remains.

The team has been especially conscious of dust and is making sure that the site is hosed down while the structural demolition occurs.

It's anticipated that demolition will be completed by about November this year. We will then begin bulk excavation of the site in preparation for the new specialist public health facility construction, which is scheduled to commence from March next year.

Australian Unity will await the finalisation of the Development Scheme later this year before commencing consultation with the Herston community to help inform a detailed project master plan that is responsive to the Development Scheme and community feedback.

### Some interesting facts

**2000+**  
Tonnes

2000+ tonnes of metal from the former Children's Hospital has been recycled

**70**  
Tonnes

On average, 70 tonnes of material is being removed from site daily

## New Public Health Facility

Australian Unity will soon lodge a Development Application to build a state-of-the-art specialist public health facility on part of the former Children's Hospital site along Herston Road.

The Development Application will detail Australian Unity's proposal for a nine story public health facility. Key features include:

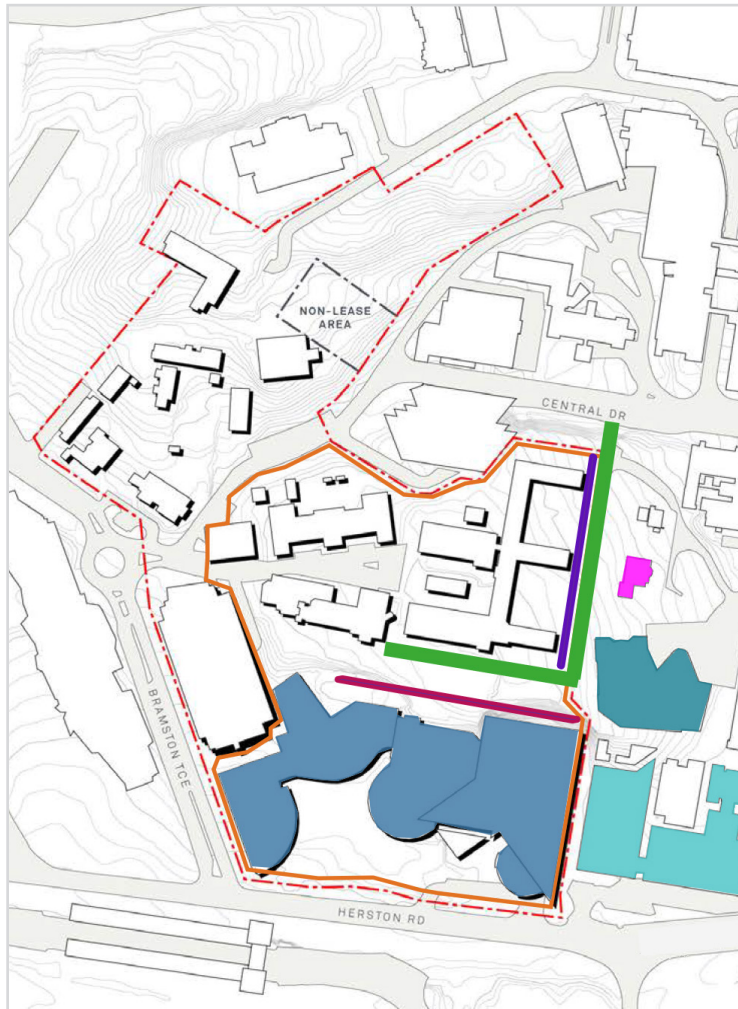

- Over \$300 million construction
- 35,000 m2 GFA
- Specialist rehabilitation
- Surgical inpatient rooms
- Operating and endoscopy
- 425+ car parks
