Hospital Car Parking – Patient and Primary Carer Car Parking Concessions

Background
The purpose of this Hospital Car Parking – Patient and Primary Carer Car Parking Concessions Policy is to improve access to, and affordability of, car parking to eligible patients and/or their primary carers in a transparent manner, on the basis of need and in accordance with the criteria set out in this Policy.

This document is a mandatory requirement under the Queensland Health Service Directive Hospital Car Parking Provisions.

Principles

• Car parking concessions will be available to assist eligible patients and/or their primary carers in meeting car parking fees incurred when the eligible patient is accessing clinical services. See Appendix 1: Car parking criteria
• Car parking concessions may range from free parking to discounted parking based on the need of eligible patients and/or their primary carers.
• The car parking concession arrangements will take into account the cost of onsite commercial car parking options available.
• Metro North will appropriately communicate information regarding car parking concessions to patients, their primary carers, and Metro North staff to ensure that information relating to facility car parking is available to all users.
• Application and approval processes will be transparent and approval processes will be in accordance with the criteria set out in this Policy.
• Both the Metro North Hospital Car Parking Concessions Policy and the RBWH and TPCH Hospital Car Parking Concessions Procedures will be available on the Metro North internet and intranet sites.

The following patients and/or their primary carers may be eligible for Metro North car parking concessions in accordance with the criteria set out in this Policy:
• Patients and/or primary carers experiencing financial hardship
• Patients and/or primary carers who need to attend Metro North hospitals for an extended period of time
• Patients and/or primary carers who are required to attend Metro North hospitals frequently
• Patients and/or primary carers with special considerations who require assistance.
Scope and Target Audience
This Policy applies to all Metro North patients, primary carers and staff (permanent, temporary and casual).

Procedure
The Director Commercial Activities will be the central administrative point for oversight and reporting of all car park concessions issued.

The Metro North Patient and Primary Carer Car Parking Concessions Policy will be administered by the Royal Brisbane and Women’s Hospital and The Prince Charles Hospital in accordance with the Procedures in place at each Metro North facility.

The Procedures in place at each Metro North facility will state, for eligible patients and/or their primary carers wishing to use paid car parking available at each Metro North facility:

• how a patient or their primary carer can access car parking concessions at that facility;
• the application process and timeframes;
• contact information for assistance; and
• how to access any forms required.

The RBWH and TPCH Facility Service Directors will manage the individual Metro North facility processes for car parking concessions.

The RBWH and TPCH Facility Service Directors will report to the Director Commercial Activities, on a regular basis, on the details of concessions issued.

Information on the number of car parking concessions issued and the cost of these concessions will be included in the Metro North Annual Report.

Complaints
Where a complaint is received by a Metro North facility in relation to the application of the Patient and/or Primary Carer Car Parking Concessions Policy, it is to be directed through to the appropriate Metro North facility complaints process to address.

Consumer engagement
Feedback has been sort from Consumer Representatives at RBWH and TPCH and relevant changes have been incorporated.

Information relating to parking will be readily available to patients, primary carers and staff.
