

MNHHS Research Education Good Clinical Practice (GCP) Training

Date/Time	Location
Friday 1 November 2019 8:30-12:30pm	RBWH Education Centre, Seminar Room 1

Target Audience: MNHHS research staff including Principal Investigators, Associate Investigators, Study Co-ordinators and Research Assistants with **at least 3 months** clinical trials involvement (Maximum of 30 places).

Course Objectives: Using interactive discussion and case studies, this TransCelerate-accredited GCP course will provide participants with:

- An awareness of GCP Principles
- An understanding of the roles & responsibilities of all parties under GCP
- An ability to apply GCP requirements to their daily research practice
- A knowledge of Source documents, Essential documents and Adverse Reporting for clinical trials
- Preventative and corrective action applying to clinical trials

It will not:

- Teach you how to prepare and submit ethics or governance applications
- Teach you how to write a protocol
- Teach you how to set up or run an investigator-initiated clinical trial

**Cost: \$230 for internal MNHHS cost centre-funded participants
\$253 (inclusive of GST) for self-funded participants**
