

Keeping Kidneys in the Community: CKD shared care program

TUESDAY 29 OCTOBER 2019

The chronic kidney disease shared care model aims to improve the integration between primary care, GPs with Special Interest (GPwSI) and nephrologists of Metro North Kidney Health Services.

The evening will provide a unique opportunity for primary care to build partnerships with Metro North Kidney Health Services, including clinicians from the Caboolture Hospital GPwSI clinic.

Attendance at the event will enable GPs to offer the chronic kidney disease share care model to patients who meet the eligibility criteria.

Funded by the Metro North Hospital and Health Service, the Metro North CKD Shared Care Program is an innovative initiative to improve outcomes for patients with or at risk of CKD.

Event details

Date: Tuesday 29 October 2019

Time: 5.30 pm – 8.30 pm

Venue: Brisbane North PHN
North Lakes office
Level 2, 10 Endeavour Boulevard
