# JAMIESON TRAUMA INSTITUTE

Named after renowned neurosurgeon Dr Kenneth Jamieson, the Jamieson Trauma Institute was established in 2018 and represents a unique collaboration of service partners striving to advance trauma prevention, research, systems, and clinical management, with the overall aim of delivering the best possible care to people suffering traumatic injuries across Queensland. The Jamieson Trauma Institute has 8 key themes. Each theme has put together short term, mid term and 2032 goals which will align with the MN32 #NEXTCARE timeline.

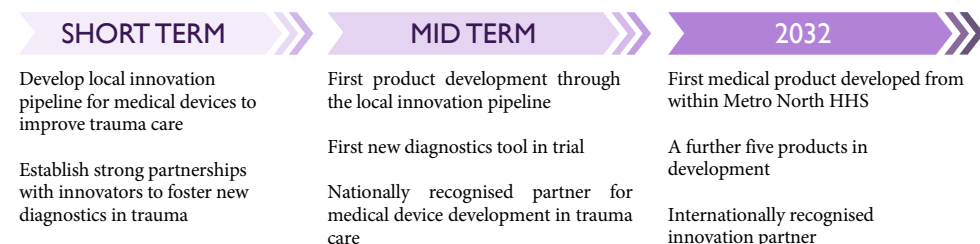

## QUALITY OF CARE AND PROCESSES

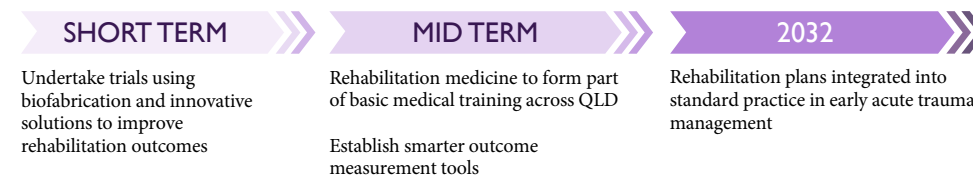

## DATA QUALITY AND ANALYTICS

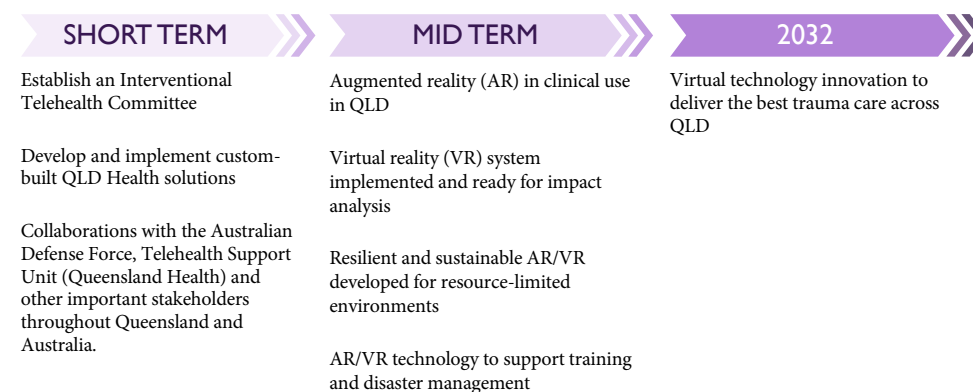

## DIAGNOSTICS AND INNOVATION

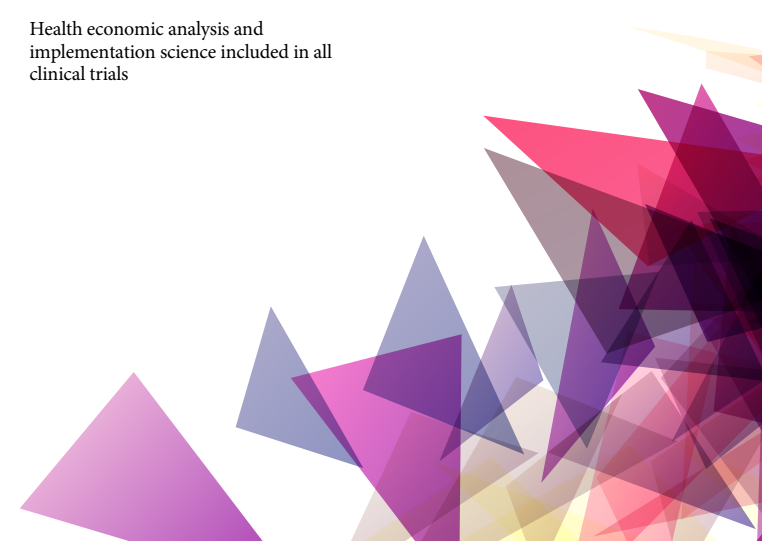

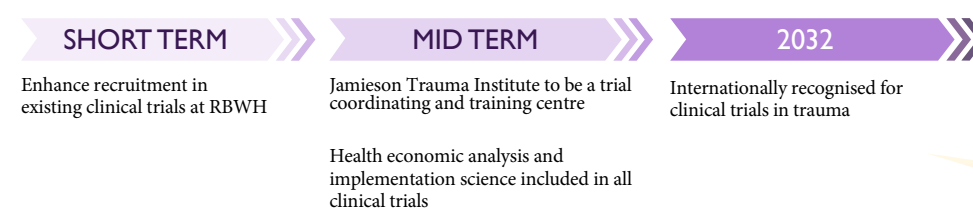

## REHABILITATION AND OUTCOME MEASUREMENT

## VIRTUAL TRAUMA CENTRE

## CLINICAL TRIALS

# EDUCATION AND TRAINING

## SHORT TERM

Lead the delivery of world-class trauma care training, including Trauma TRAPS, telemedicine and trauma coordination nurse courses

Investigate leading-edge simulation training platforms and scenarios to improve trauma outcomes

## MID TERM

Deliver conferences and workshops which improve trauma care

Partnerships with state-wide clinical networks for the delivery of trauma clinical guidelines

## 2032

State of the art Centre of Simulation and Telemedicine Training

Jamieson Trauma Institute online journals

Internationally renowned Jamieson Trauma Institute Conference

# INJURY PREVENTION

## SHORT TERM

Jamieson Trauma Institute knowledge hub to be the 'go-to' for injury and trauma information

## MID TERM

Establish post-grad research program spanning primary, secondary & tertiary prevention

Establish mechanisms for data surveillance & emerging injury patterns

Establish a grant track record in injury prevention

## 2032

Established track record in injury prevention research

Be recognised consultants to government on injury prevention

Hold strong relationships with national and international leaders in injury prevention

Please contact us if you have any questions, suggestions for projects, collaborations or partnerships.
