

# Safety Reporting for Clinical Trials

## Externally Sponsored Trials

### Reporting adverse events

Unless otherwise stipulated in your approval letter, for externally-sponsored clinical trials conducted at Metro North HHS, the NHMRC guidance document applies to safety monitoring and reporting for clinical trials involving therapeutic products [NHMRC Guidance: Safety monitoring and reporting in clinical trials involving therapeutic goods](#).

### What should be reported to the HREC?

- Urgent Safety Measures (USMs) instigated by the Site or Sponsor within 72 hours of becoming aware of the event
- All other Significant Safety Issues (SSIs) should be notified within 15 calendar days of the sponsor instigating or being made aware of the issue
- An annual safety report including a clear summary of the evolving safety profile of the trial
- Investigator Brochure amendments
- Data Safety Monitoring Board (DSMB) reports

### What should be reported to the RGO?

- Urgent Safety Measures (USMs) instigated by the Site or Sponsor within 72 hours of becoming aware of the event
- Suspected Unexpected Serious Adverse Reactions (SUSARs) or Unanticipated Serious Adverse Device Effects (USADEs) arising from the local site, within 72 hours of becoming aware of the event or change in status from SAE to SUSAR
- All other SSI that result in temporary halt, amendment or early termination of a trial within 72 hours of becoming aware of the event
- An annual safety report including a clear summary of the evolving safety profile of the trial
- Investigator Brochure amendments
- Data Safety Monitoring Board (DSMB) reports

### What should NOT be reported to the HREC or RGO?

- Single Serious Adverse Events (SAEs), Serious Adverse Reactions (SARs) and Adverse Events (AEs) that do not affect the safety of participants or materially impact on the continued ethical acceptability or conduct of the trial.
- External SUSARs or device/non-therapeutic good equivalents
- Six monthly line listings

## Summary tables

- [Table 1 Definitions](#)
- [Table 2 Investigator reporting - flow and timing of safety reports for clinical trials](#)
- [Table 3 Sponsor reporting - flow and timing of safety reports for clinical trials](#)

## Definitions

Table 1 Definitions

| Term   | Definition   |
|--|--|
| <b>Annual Safety Report</b>  | Summary of all newly available safety information relevant to a trial that is received over a 12-month period (the Executive Summary of safety information produced for international regulators, such as the Development Safety Update Report (DSUR) may serve as the Annual Safety Report).                                      |
| <b>Investigational Brochure (IB)</b>   | Compilation of the clinical and non-clinical data on the investigational product(s) that are relevant to the study of the product(s) in human participants.  |
| <b>Product Information (PI)</b>  | The approved Australian summary of the scientific information relevant to the safe and effective use of a prescription medicine. If the conditions of use differ from those authorised, the PI should be supplemented with a summary of relevant clinical and non-clinical data that supports the use of the product in the trial. |
| <b>Significant Safety Issue (SSI)</b>  | A safety issue that could adversely affect the safety of participants or materially impact on the ethical acceptability or conduct of the trial.   |
| <b>SAE – Serious Adverse Event</b><br><b>SAR – Serious Adverse Reaction</b><br><i>persistent or significant disability or incapacity, or is a congenital anomaly or birth defect</i><br><b>SUSAR</b> | Any adverse event/adverse reaction that results in death, is life threatening, requires hospitalisation or prolongation of existing hospitalisation, results in persistent or significant disability or incapacity, or is a congenital anomaly or birth defect.  |
| <b>Suspected Unexpected Serious Adverse Reaction (SUSAR)</b>   | An adverse reaction that is both serious and unexpected.   |
| <b>Urgent Safety Measure (USM)</b>   | <p>A measure required to be taken in order to eliminate an immediate hazard to a participant's health or safety.</p> <p>Note: This type of significant safety issue can be instigated by either the investigator or sponsor and can be implemented before seeking approval from HREC's or institutions.</p>                        |

**Table 2: Investigator Reporting – flow and timing of safety reports for clinical trials**

|                | Individual SAEs<br>(except those identified in the Protocol as not requiring reporting) | Congenital Anomaly/birth defect from participant/partner pregnancy | Individual SAE's deemed SUSARs/USADEs by the investigator, arising from the Local Site | Urgent Safety Measures (USM) instigated by the Site | Other Urgent Safety Measures instigated by the Sponsor | All other SSI (including, temporary halt/early termination of a trial)     | Annual Sponsor Safety Report |
|----------------|---|--|--|---|--|--|------------------------------|
| <b>Sponsor</b> | Within 24 hours of becoming aware of the event.   | Within 24 hours of becoming aware of the event.                    |  | Within 24 hours of becoming aware of the event.     |  |  |                              |
| <b>To RGO</b>  |   |  | Within 72 hours of becoming aware of the event.  | Within 72 hours of becoming aware of the event.     | Within 72 hours of becoming aware of the event.        | No later than 15 calendar days of the Sponsor becoming aware of the issue. | Annual Basis                 |

**Table 3: Sponsor Reporting – flow and timing of safety reports for clinical trials**

|                         | SUSARs/USADEs<br>(occurring in Australian Participants)   |   | Significant Safety Issues (SSI)   |  | Annual Safety Report |
|-------------------------|---|---|---|--|----------------------|
|                         | Fatal/Life Threatening SUSARs   | All Other SUSARs                                    | Urgent Safety Measure   | All other SSI (including, temporary halt/early termination of a trial)     | //                   |
| <b>To Investigators</b> |   |   | Without undue delay and no later than 72 hours of the Sponsor becoming aware of the issue | No later than 15 calendar days of the Sponsor becoming aware of the issue. | Annual basis         |
| <b>To TGA</b>           | Immediately but no later than 7 calendar days after being aware; follow up information within a further 8 calendar days | 15 calendar days after being made aware of the case | Without undue delay and no later than 72 hours of the Sponsor becoming aware of the issue | No later than 15 calendar days of the Sponsor becoming aware of the issue. | Annual basis         |
| <b>To HREC</b>          |   |   | Without undue delay and no later than 72 hours of the Sponsor becoming aware of the issue | No later than 15 calendar days of the Sponsor becoming aware of the issue. | Annual basis         |
