

INVITATION FOR GPs

Common challenges in primary care: Haematology shared care

Wednesday 26 August 2020, online webinar

Metro North Hospital and Health Service (MNHHS) and Brisbane North PHN invite GPs to join us and our panel of experts for an evening of education, networking and discussion on the subject of shared care for low grade haematology conditions in the Metro North region.

The panel will be discussing the management of myelodysplastic disorders, monoclonal gammopathies of unknown significance and chronic lymphocytic leukaemia and how the follow up of these patients can be co-ordinated between primary care and hospital specialists.

This GP education will be in webinar format using Slido to allow registrants to submit questions both prior to the event and during the event. Links to access the webinar and the Slido service will be sent out in a separate confirmatory email on registration.

Learning outcomes

1. Outline and discuss the management of low-grade haematological disorders as they relate to shared care.
2. Recognise haematology red flags that signify serious disease or deterioration.
3. Develop strategies of appropriate safe investigation of patients identified to have abnormal haematology laboratory investigations and when to refer.
4. Review and discuss the shared care haematology project.

Program	
6.30 pm - 6.45 pm	Welcome and GP Liaison update Dr Mike Hamilton
6.45 pm - 7.15 pm	Approach to abnormal full blood count Dr Kirk Morris, Haematologist
7.15 pm - 7.45 pm	How do I monitor MGUS, CLL and MDS in primary care? Dr Cameron Curley, A/Director Haematology and BMT
7.45 pm - 8.15 pm	MNHHS Haematology and shared care program Q&A session Dr Cameron Curley, A/Director Haematology and BMT Dr Kirk Morris, Haematologist
