

WEBINAR INVITATION FOR GPs

Common challenges in primary care: Impacts of COVID-19 on chronic respiratory disease

Wednesday 28 October 2020, online webinar

Metro North Hospital and Health Service (MNHHS) and Brisbane North PHN invite GPs to join us and our panel of experts for an evening webinar of education and discussion on the effects of COVID-19 infection in patients with existing chronic respiratory conditions.

The panel will be discussing the approach to prevention and optimisation of COPD and asthma pre-COVID-19 infection, management strategies and risk stratification in the event of COVID-19 infection and how to identify red flags and monitor for longer term respiratory consequences of COVID-19 infections.

This GP education will be in webinar format and we will be using Slido to allow registrants to submit questions both prior to and during the event. Links to access the webinar and the Slido service will be sent out in a separate confirmatory email on registration.

Learning outcomes

1. Discuss and develop a practice plan for identifying and preparing your target patient cohort for potential COVID-19 infection.
2. Discuss and develop strategies for the optimisation of patients with chronic respiratory disorders pre-COVID infection.
3. Describe and discuss management of COVID-19 infection in various settings including risk stratification and red flag identification.
4. Develop strategies to employ in the post-acute and convalescent period and discuss the potential identification and approach to long term respiratory consequences of COVID-19 infection.

Presenters will include Dr Zaheer Bhikoo, Metro North respiratory specialist and a representative of the Pulmonary Rehabilitation Program.

Event details

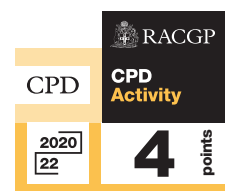

Date: Wednesday 28 October 2020

Time: 6.30 pm – 8.30 pm

Venue: Online webinar - Zoom

Cost: No cost to attend.

Activity ID: 223569
