

Webinar Invitation for GPs

Children and adolescent mental health - mythbusting and unravelling the mystery of local services and supports for GPs

Wednesday 25 November 2020

The current climate has put a lot of stress on our young people resulting in a significant increase in presentations for mental health support. Access difficulties in the system have highlighted the need to support GPs to find appropriate care for their patients.

Join our panel of paediatric and mental health specialists from Metro North Hospital and Health Services, Children's Health Queensland, Redcliffe and Caboolture Child and Youth Mental Health Services (CYMHS) teams, community mental health services and more, to help explore and answer your questions.

Please pose your questions for the night via Slido so our specialists can answer them.
