

Problem Definition: formulating clinical research questions to address knowledge gaps

Tuesday, 9th February 2021, 12:30pm – 1:30pm
Introduction to Clinical Research, TEAMS

Topics covered:

- Review importance of research question to design of research studies
- Describe frameworks and tools for problem definition
- Deconstruct process with clinical research examples

This session is designed for aspiring early and mid-career clinical researchers and potential research student who are wanting to develop skills in clinical research project design

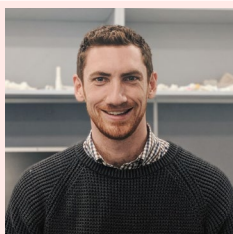

Professor Janet Davies
Assistant Director Research,
MNHHS
Head, Allergy Research Group,
QUT

Dr Nicole Marsh
Nursing and Midwifery
Director, Research (RBWH);
Adj. Assoc. Prof., Griffith
University, QUT; Clinical Trial
Director, AVATAR, Griffith
University

Amanda Corley
Research Fellow (Vascular
Access), RBWH and Griffith
University

Nicholas Green
Senior 3D Medical Modeller,
Herston Biofabrication Institute,
MNHHS

Register by COB Friday, 5th February 2021

Please use the online registration form available from the MN Research webpage
