

# HERSTON HEALTH PRECINCT SYMPOSIUM 2021

Healthcare Innovations  
How practice has changed

6–10 September 2021  
Education Centre, RBWH

## WELCOME

It is my pleasure to introduce to you the 2021 Herston Health Precinct Symposium, which will take place on 6–10 September in the Education Centre at the Royal Brisbane and Women's Hospital.

The 2021 program once again includes Keynotes, Multidisciplinary Sessions, and Education Sessions over the week, showcasing cutting edge clinical practice and growing industry and academic partnerships on the Herston Campus.

Additionally, we are pleased to present an international Keynote speaker on Tuesday covering issues of COVID-19 from New Orleans, where their Mardi Gras was a superspreading

event! The Symposium will also showcase the research occurring at RBWH and the Herston Precinct Partners, with oral abstract presentations on Tuesday, Wednesday and Thursday mornings.

I would encourage all to take advantage of this excellent learning and networking opportunity. For further details, keep an eye on the Symposium website - <https://metronorth.health.qld.gov.au/events/herston-healthcare-symposium>.

See you all in September!

Professor Jeffrey Lipman AM

Research Ambassador

Royal Brisbane and Women's Hospital  
Metro North Hospital and Health Service

### MONDAY

The Genomic Institute: Partners in Precision Medicine

How 3D Printing Can Improve Clinical Practice – Herston Biofabrication Institute

Clinico-Pathological Conference

**DEBATE:** 'Who Should Manage Department Budgets?' – Clinicians versus Administrators

Data: The Integral Part of Quality Improvement Within Trauma Systems – Jamieson Trauma Institute

### TUESDAY

**KEYNOTE:** Lessons learned from one of the first COVID-19 epicentres in the United States'

Healthcare Innovations: Changing Times, Changing Practice

Implementation Science to Practice

### WEDNESDAY

**KEYNOTE:** 'The Health Data Ecosystem in 2030: Interoperability, Smart Apps and More'

Healthcare Innovations – Has Healthcare Innovation Reached It's Potential

Interpreting and Managing Genetic Abnormalities in Disease – Case Studies and a Genomic MDT Presentation

### THURSDAY

**KEYNOTE:** QIMR Berghofer

Falls in Hospital and How to Avoid Them

Herston Infectious Disease Institute – Beyond Herston and Traditional Research

Symposium Award Presentation and Reception

### FRIDAY

Conception of Research Within the Neurosciences Institute

Herston Grand Rounds – 'First Do NO Harm'

Back to the Future – Emerging Technologies in Anaesthesia and Intensive Care

Pelvic Pain in Gynaecology
