Metro North Mental Health

2020 was a year of transition for research at Metro North Mental Health (MNMH). Professor James Scott took over the role of Director of Research from Professor Michael Breakspear and Associate Professor Susan Patterson finished up after eight years in the Principal Research Fellow role. This role has been taken up by Dr Kylie Burke. James and Kylie have established a dedicated research team with a vision to systemically embed research into clinical practice, broaden the research endeavor across staff and disciplines and to shift the research focus to emphasize service evaluation.

In this context of change and COVID19 driven challenges for mental health service provision, staff continued to pursue research with the aim of creating the evidence needed to promote mental health, prevent mental illness, support early diagnosis and intervention and improve mental health across the lifespan. The dedication of clinicians and researchers to this task is commended and resulted in more than 75 peer reviewed publications and awarding of grants to address significant mental health issues facing vulnerable Australians. For example, Associate Professor Ed Heffernan and colleagues were awarded a MRFF grant to develop and evaluate an intervention designed to improve mental health for young indigenous Australians in detention. In 2020 cross disciplinary and collaborative research continued to grow with nurse-led research investigating trauma informed care resulting in recognition of Kobie Hatch who was awarded an Ian McFarlane Award for Nursing in Clinical Practice. A collaborative project involving allied health and medical researchers conducting an RCT comparing the effectiveness of social cognition and interaction training with placebo therapy (befriending therapy) in people living with schizophrenia was also completed. As a key site for the trial, Metro North Allied Health clinicians led by Anne Gordon delivered the interventions. This has now been published in the British Journal of Clinical Psychology.

Research Awards and Achievements

Recipient (RBWH staff in bold)	Award	Event
Kobie Hatch	2020 Sir Ian McFarlane Award for Nursing in Clinical Practice	2020 RBWH and RBWH Foundation Grant Awards Ceremony
Forensic Mental Health Service	2020 Health Services Research Award	Metro North Research Awards

Research Grants Awarded in 2020

Investigator Names (RBWH staff in bold)	RBWH Departments / Research Groups	Research Project Title	Granting Body	Total Awarded	Year/s
Rana, R. (USQ), Higgins, N	Mental Health	Using Artificial Intelligence to prioritise emergency calls for suicide prevention due to COVID-19 pandemic	Advance Queensland Industry Research Fellowships 2020 R3-COVID-19	\$300,000.00	2020-2023
Flaws, D	Metro North Mental Health Redcliffe ICU Caboolture ICU TPCH ICU CCRG	"Greater Recovery After Critical Care (GRACE)"	Clinician Research Fellowship	\$500,000
