

GP Education event

8.30am–12pm | Saturday 18th November 2023

Clinical Skills Development Service,
Block 6 RBWH Campus, Level 5 Conference Rooms 2 and 3

The Comprehensive Breast Cancer Institute invites GPs to join us at our 2023 GP Education event

The event will provide three hours of information and education, with topics including:

Hormone therapy risk and benefits

Imaging modalities in breast screening

Investigation of breast symptoms

Menopause and HRT

Breast case studies

Genetics and breast cancer

Consumer experience

Presenters

A vast scope of multidisciplinary presenters including medical oncologists, breast surgeons, breast care nurses, endocrinologist, geneticist, radiologists and GPs with special interest. This informative session will allow for an open discussion with panel members on the above topics.
