

Bent, broken and locked: An acute orthopaedic multidisciplinary update for GPs

Tuesday 20 August 2024

Metro North Health and Brisbane North PHN invite GPs to join your specialist colleagues for an evening of networking and education. The evening will focus on interactive case-based learning facilitated by specialist multidisciplinary clinicians from Metro North Orthopaedic, Physiotherapy, Hand Therapy and Older Persons Emergency Network teams.

The diagnosis, assessment and management of common acute orthopaedic injuries and conditions seen in primary care will be discussed with opportunities to ask questions of specialist multidisciplinary clinicians. Learn about Metro North orthopaedic and allied health services and how to refer.

This interactive session will be held face to face and will include dinner.
