

Common challenges in Primary Care: Heart failure and POTS

Wednesday 10 October 2025 | 6.00 pm – 8.30 pm

Metro North Health and Brisbane North PHN invite GPs to join our panel of experts for an evening of education and discussion.

Join your general practice colleagues for a night of education covering heart failure and Postural Orthostatic Tachycardia Syndrome (POTS). Highlights include best practice and implementable treatment for patients with POTS and heart failure in primary care including pharmacological and non-pharmacological interventions.

There will be an opportunity to engage with our panel of experts about advice on management, referral pathways and support services that may be useful for you and your patients in primary care.

This interactive session will be held **in person only**.
